Day 3 Assignment

IW Assignment

Download the template :- u2c1.zip

Following the exact HTML id's, class folder structure as mentioned in template is mandatory.

Your layout should like u2c1.png

Use Box Model and flex to achieve the layout

For image links refer to : Website

For styles, font-size and tags to be used refer to u2c1 styles.png

Don't use inline styles

Submit deployed link - Netlify

Problem 1:

Your layout should like paytm.png

Use Box Model and flex properties to achieve the layout

For image links refer to : https://paytm.com/

Problem 2:

You can't use any style tags for any of the html tags and you have to use classes and ids to apply the styles, keep the usage of ids to minimal and optimise the usage of classes by using multiple classes

HINT: Using CSS in HTML file

```
<head>
    <style type="text/css">
        .class1 {

        }
        #id2  {

        }
    </style>
</head>
```

Use Box Model to build the layout

- Create a file called `periodic_table.html`

- The layout should look like the given template https://masai-course.s3.ap-south-1.amazonaws.com/resources/templates/css/periodic_table.jpg
